

River’s Health Results

Good news! ■

River has been tested with Embark’s comprehensive panel of 274 genetic health conditions. We are happy to report that she is completely clear of all tested conditions. This means she is not at increased risk for any of these genetic issues.

Genetic Health Results

Category	Result
Total Conditions Tested	274
At-Risk Conditions	0
Carrier Status	0
Clear Results	274

■ Rest easy knowing River is in excellent genetic health. This provides peace of mind for her care and for future puppy parents.
